

Good morning, Team!

I hope that each of you had a relaxing weekend. We had a variety of updates over the weekend. Here is a summary of what's been pushed out:

No significant changes...just added clarity in a few areas based off of the HAF GENADMIN message that further relayed the intent of the 24 March OSD EXORD....and the new 2 AF/CC memo that superseded previous one and added concurrent travel authorization for TTG moves. Summary below...

1. (International Travel) Where a member has initiated non-GFM travel (including intermediate stops), the proper authority may grant an exception to policy to permit continued travel to final destination. Requests for exception must follow guidance in Part I.A.2.G. Initiated travel means a member has already started travel.
2. (International Travel) Where a member's non-GFM TDY ends while this order is in effect, the proper authority may grant an exception to policy to authorize return to home station. Requests for exception must follow guidance in Part I.A.2.G.
3. Added: Reserve mobilizations ending during the stop movement will follow all applicable laws and policies, to include DoDI 1235.12, Accessing the Reserve Components (RC), 7 June 2016. The appropriate AF organization should forward any reserve component issue concerning GFM activities to JS DJ3 so decisions on replacements and extensions can be made accordingly.
4. Added: Casualty and Mortuary Affairs Programs have outlined exemptions for their mission sets in guidance dated 27 Mar 20. See Attachment 14.
5. Defined GFM: Global Force Management (GFM) activities constitute deployments/redeployments ordered in the GFMAP including Service internal rotations to support, and TDY employed to source ordered capabilities.
6. (Update) Technical Training Student/Graduate Travel: IAW 2 AF/CC NOTAM 20-003, dated 27 March 2020 (Attachment 6)...this waiver authorizes technical training graduate and concurrent dependent travel

Both documents to include all attachments associated with the SECDEF Stop Movement can be found at...https://mypers.af.mil/app/answers/detail/a_id/46624

Commanders should determine the appropriate PPE required for protection based on the mode of transmission of the disease in question. **See attached memo.**

Can you please ensure that your UFPMs are tracking and submitting the exception to policy of the extension to the due dates for those members that are **CURRENTLY ON a FAILURE** and are due tests in March, April, and May? I am work with SSgt Lopez and his leadership team to update all members currently on a PASSING PT test that are due in March, April, and May extended out per AFPC's Guidance. https://mypers.af.mil/app/answers/detail/a_id/46625

As we get more information, I will pass it on. I apologize for the delay, as I was trying to go through all of the personnel updates that were pushed over the weekend, to include the memorandum from HAF/A1 for the facemask covering guidance.

Below are some of the updates that AFPC pushed out over the weekends. There are not a lot of new changes. However, I have received quite a few emails or phone calls requesting to resend out some of the guidance I've sent previously; I've added in some of the key information for those common requests.

(Update)Stop Movement Waiver: Military Personnel Flights are authorized to out-process Airmen who are exempt from Stop Movement or those Airmen that have received an **approved** waiver from the appropriate waiver authority, even if they are outside of their 60-day RNLTD window. ***Please do not submit a request to AFPC requesting a RNLTD acceleration.*** As a result of COVID-19 STOP MOVEMENT limitations, AFPC extended RNLTDs for impacted Airmen. Subsequently, guidance was provided for Airmen to proceed if they met exemptions IAW, the STOP MOVEMENT and Concurrent Guidance Related to Travel Restrictions due to the Coronavirus Disease (COVID-19) myPers message dated, 21 April 2020.
